To Whom It May Concern ;

We write today to inform the membership, that we as the elected council take seriously the problem of drugs and alcohol in the community. We understand the problems that stem from the abuse of these substances.

We also want you to understand that we support the R.C.M.P in their efforts to deal with those that sell drugs and alcohol in the community. We want to begin to build a healthy community and hope others support us in the effort to do so.

We also want those that are selling drugs and alcohol to understand the harm that is caused by this practice , to stop immediately.
