Boil Your Water

Please read this notice for important health and safety information!

ATTENTION RESIDENTS OF _____ using _____

As of _____ until further notice, the water from this system is not safe to drink until boiled
due to _____

*Any water that is going to touch
your mouth must have been boiled.
Cool water before using.*

People using this water supply must boil their water first.

WATER MUST BE BROUGHT TO A FULL BOIL FOR AT LEAST ONE MINUTE

if you are going to use it for any of the following:
drinking; cooking; making juice, drinks or infant formula;
brushing teeth or soaking dentures; washing fruit and vegetables;
making soup, tea or coffee and making ice cubes.

DO NOT

drink water from a public drinking fountain. It has not been boiled and it is not safe.

DO NOT

bathe infants or toddlers in water that has not been boiled and cooled.
It is recommended that you sponge bathe infants and toddlers
during the Boil Water Advisory.

If you or anyone you know becomes ill with diarrhea or stomach pains,
seek medical care immediately.

Boil your water until you receive official notice that this is no longer required.

Use water that
has been boiled for:

- Drinking
- Cooking
- Making juice, drinks or infant formula
- Brushing teeth or soaking dentures
- Washing fruit and vegetables
- Making soup, tea or coffee
- Making ice cubes

You can continue to use
regular tap water for:

- Hand washing
- Washing dishes
- Bathing, except infants and toddlers
- Laundry
