CURRENTLY 0 ACTIVE

COVID-19 IS NOW BECOMING MORE COMMON IN MANY COMMUNITIES. THANKFULLY BEING VACCINATED IS THE FIRST LINE OF DEFENCE AGAINST THE SERIOUSNESS OF THIS ILLNESS. VACCINES ARE CURRENTLY AVAILABLE IN OUR CLINIC. PLEASE MAKE AN APPOINTMENT.

PLEASE REMEMBER IF YOU HAVE ANY SYMPTOMS OF COVID TO CALL THE CLINIC TO MAKE AN APPOINTMENT

COVID TESTING AT THE CLINIC

Please help us stop the spread by getting tested and adhering to the guidelines

By knowing if you are positive or negative can keep our most vulnerable safe

Please follow BC guidelines and our Nurses directions if you are asked to isolate

Please remember when having a COVID test at the clinic, though the test is fairly quick it does take some time, and there are times where there may be a wait due to others in front of you, or other emergencies happening in the clinic.

If you test negative on the rapid test, and you are symptomatic, you must then have the swab in the nose or the gargle test. This will need to be sent to the lab for verification. The rapid test occasionally will miss a positive case. You and your family must self isolate until you have the results, usually 2-3 days.

If you are negative and you refuse the nasal swab or the gargle test, you and your family will be requested to self isolate for 10 days.
